

HDC DE 0005

Topic: EUROMAP 67

Introduction:

EUROMAP means European Plastics and Rubber Machinery.

With this definition, a consortium of machine manufacturers has identified products that can be used in the various applications.

There are different versions. Version 67 is shown here as an example. Further information on approved components can be sent on request.

Application

Weidmüller offers connectors for this area:

- Connectors for EUROMAP 67: Electrical interface between injection moulding machine and handling device / robot

The design for these connectors can be seen in the illustration on the right.

The connectors approved for this application are listed below.

- Housing not specified with regard to overall height and cable outlet.
- Contact type not specified with regard to material.
