

**Weidmüller** 

# Certificate

## Klippon® Range

The below mentioned Application Center is successfully trained and audited to assemble ATEX and IECEx certified Connection and Junction Boxes of the listed ranges. Under the ATEX regulation and the IECEx Scheme it is mandatory that the production quality assurance is surveilled by a Notified and Certified Body. The audit was carried out by DEKRA and Weidmüller Interface GmbH & Co. KG to comply with these regulations and to ensure the premium quality requirements of the Weidmüller Klippon® brand. The Application Center is fully integrated in the Weidmüller Interface Production Quality Assurance System and therefore listed in the ATEX Quality Assurance Notification and the IECEx Quality Assessment Report of Weidmüller Interface.

Weidmüller Interface GmbH & Co. KG appoints
