

Technical change to HDC RailMate

Dear Madam or Sir,

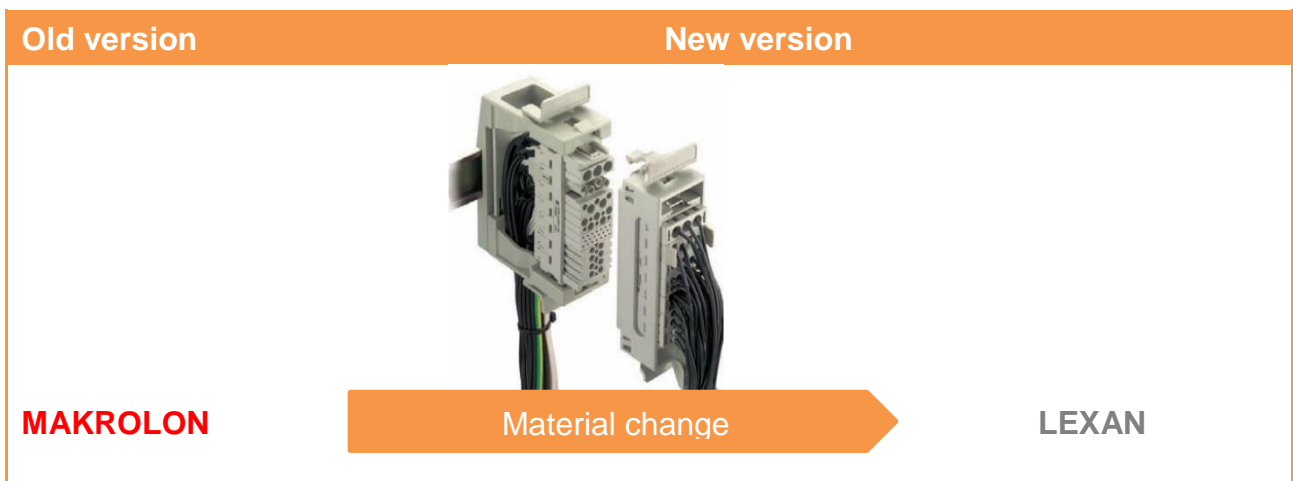

the below listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

The HDC rail mounting system "RailMate" was previously made of Makrolon.

2. Technical change

In the future, all plastic components of the RailMate system will be made of Lexan.
 The components made of Lexan appear in their colour a bit lighter than before.

3. Reason for change

It is now possible to achieve a uniform, homogeneous colour scheme. The individual components always have the same uniform, homogeneous colouring.

4. Availability

The changeover will take place successively after the previous material variants have been sold off.

5. Affected parts

1797580000	HDC RAILMATE BASIS
1797510000	HDC RAILMATE HB10 SET
1797550000	HDC RAILMATE HB10 TOP
1797520000	HDC RAILMATE HB16 SET
1797560000	HDC RAILMATE HB16 TOP
1797530000	HDC RAILMATE HB24 SET
1797570000	HDC RAILMATE HB24 TOP
1797500000	HDC RAILMATE HB6 SET
1797540000	HDC RAILMATE HB6 TOP

6. Data

PCN-number:	PCN-PB72-20190430-00-A
Date of publishing:	2019, April 30
Duration of validity:	Until further notice
Revision number:	00-A

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.
