

Technical change to FTA-C300

Dear Madam or Sir,

The above listed articles will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications are performed for reasons of product improvements.

1. Initial situation

Articles on Section 5 were delivered in the past with LP and LP2N connectors. Furthermore, they were delivered with Dekafix*

*Dekafix is the universal marker for terminals, plug-in connectors and electronic modules from the Weidmüller product range (see detail).

DEKAFIX detail

Tampoprint detail

2. Technical change

Based on continuous improvement the LP and LP2N connectors will be replaced by LL and LL2N connectors with Tampoprint.

3. Reason for change

Obsolescence of LP and LP2N connector range and addition of **UL-recognized** approvals (cULus) on the label for these products, making each interface UL recognized.

4. Availability

Current products in stock still have old connectors. Since today new productions will be with new modifications detailed above. This will be reflected on its KKZ or compatibility indicator which will be increased. As time goes on, products with old compatibility codes will decrease until end of stock following a FIFO process. FIFO stands for *First in – First out* in our stock locations

5. Affected parts

1247120000	FTA-C300-16AI-SH-S
1247140000	FTA-C300-16AI-TEST-S
1222980000	FTA-C300-16AO-SH-S
1223020000	FTA-C300-16AO-TEST-S
1415220000	FTA-C300-16DAI-SH-S

6. Data

PCN-number: 20210517

Date of publishing: 05-17-2021

This document has indefinite validity from today

We are very sorry for all the inconveniences caused and doing everything to adjust this product change as smooth as possible without big influence on delivery times and general functions.

For further questions please contact your sales office directly. All contacts for sales representatives are available here: www.weidmueller.com/contact

Best regards
