

## Klippon® EBi enclosure series

Implementing high safety requirements economically

### Redesigned enclosure series for industrial applications

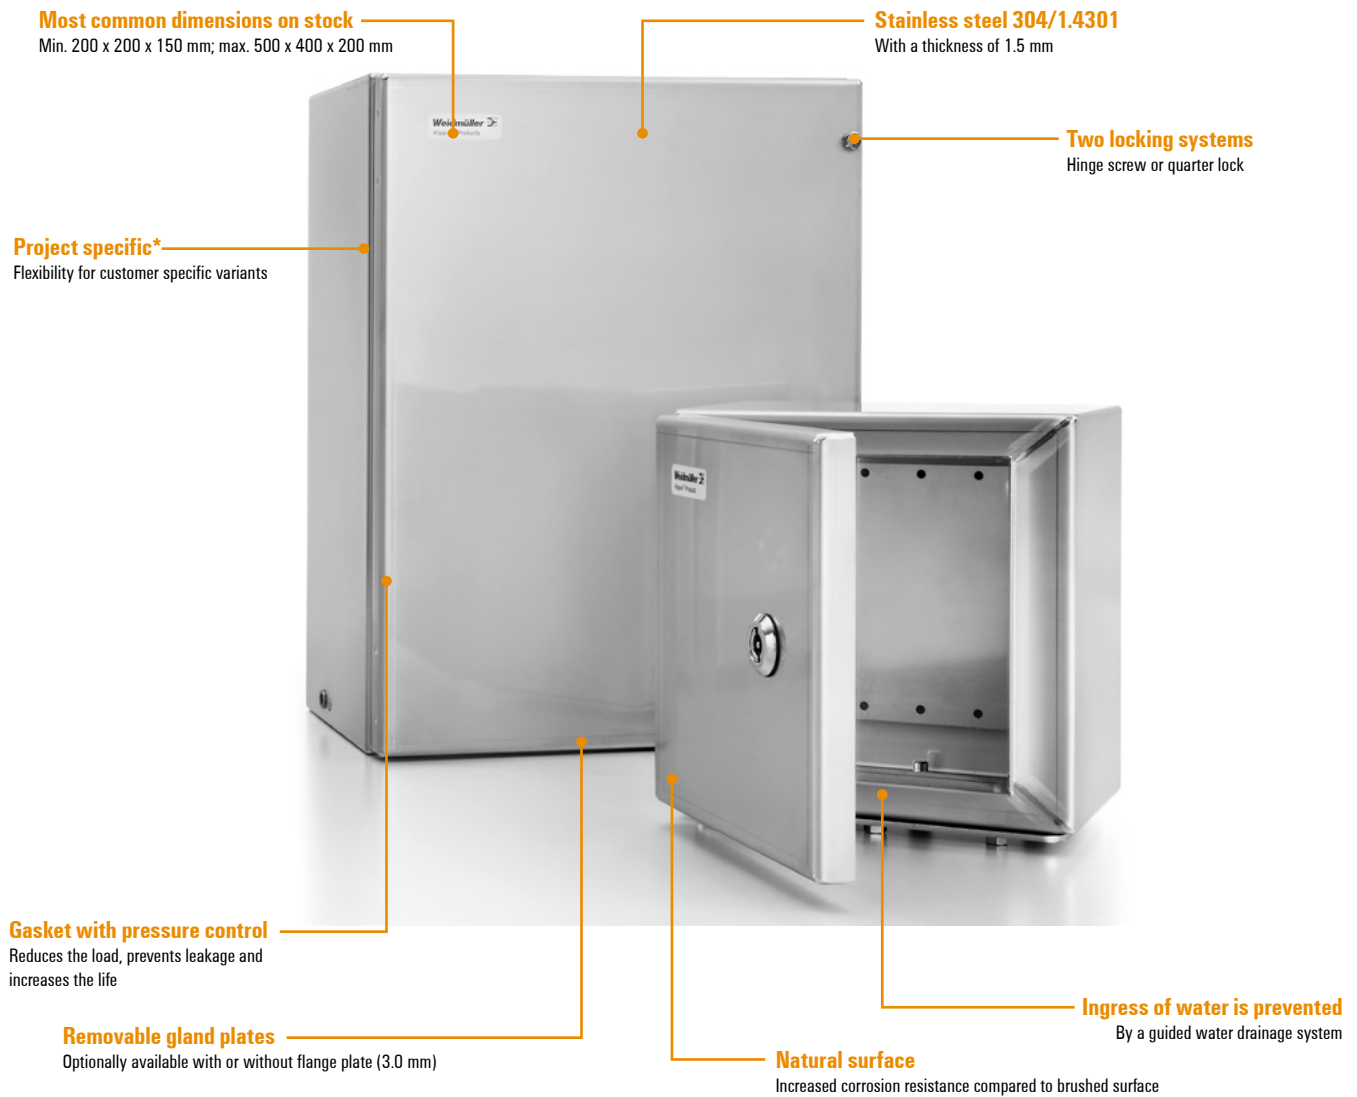

Enclosures in industrial environments should provide long-term protection against external influences – even under harsh conditions. The required protection can be realised cost-effectively worldwide with Weidmüller's optimised enclosure concepts.

The new Klippon® EBi enclosure series has been specially designed for use in industrial environments. It reliably meets all requirements for use in harsh environments and is characterised by attractive performance features. The cost-effective stainless steel enclosures allow a very economical calculation as well as maximum flexibility in customer projects. In addition to our Klippon® EBi series for applications with highest requirements our premium enclosure series Klippon® TB is the perfect choice.

#### Your special advantages:

- High impact resistance
- The robust, silicone-free CR gaskets are additionally protected by a pressure control
- Ingress of water is prevented by a guided water drainage system
- High degree of protection (IP66)
- Robust enclosure lid with Hinged Screws (HS) or Quarter Lock (QL) locking system
- Easy adaption of the standard enclosure possible for customer projects

\*Adjustments possible: Materials, surface finishes, material thicknesses, paintings, dimensions, attachments, cut-outs, assemblies
