

Technical change to RS IO Interfaces

Dear Madam or Sir,

The products listed below are subject to a product change and will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications mentioned have been made to support our ongoing commitment to continual improvement and ongoing product development.

1. Initial situation

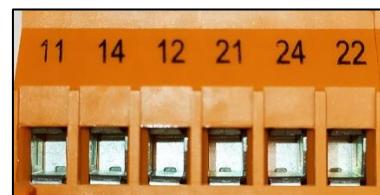

Articles on Section 5 were delivered in the past with LPK SI fuse holders. Furthermore, some of them were being delivered with 1302800000 Jumpers and LPK3 connectors with Dekafix* as in the following table:

Part number	Description	Fuse holder	Jumper	LPK3 to LL3R
9441560000	RS 16IO 2W F R S	YES	YES	NO
9441860000	RS 16IO 1W I R S	YES	NO	NO
9441870000	RS 32IO 1W I R S	YES	NO	NO
9441710000	RS 32IO 2W R S	YES	YES	NO
9441600000	RS 16IO 3W I R S	YES	NO	YES
9441700000	RS 16IO 2W R S	YES	YES	NO

*Dekafix is the universal marker for terminals, plug-in connectors and electronic modules from the Weidmüller product range (see detail).

2. Technical change

Based on continuous improvement the LPK3 connectors will be replaced by LL3R connectors with Tampoprint. In addition, LPK SI fuse holders will be replaced by LPA SI fuse holders and 1302800000 Jumpers will be replaced by 1472200000 Jumper.

3. Reason for change

Obsolescence of LPK SI fuse holder, obsolescence of LPK3 connectors and blocking of 1302800000 Jumper.

4. Availability

Current products in stock still have old connectors and may have the old jumper. Since today new productions will be with new modifications detailed above. This will be reflected on its KKZ or compatibility indicator which will be increased. As time goes on, products with old compatibility codes will decrease until end of stock following a FIFO process. FIFO stands for *First in – First out* in our stock locations.
