Technical change to a material modification on MultiCard

Dear Madam or Sir,

the products listed below are subject to a product change and will be supplied in a modified revision. Please pass this product information on to your employees and, if needed, to your customers. All modifications mentioned have been made to support our ongoing commitment to continual improvement and ongoing product development.
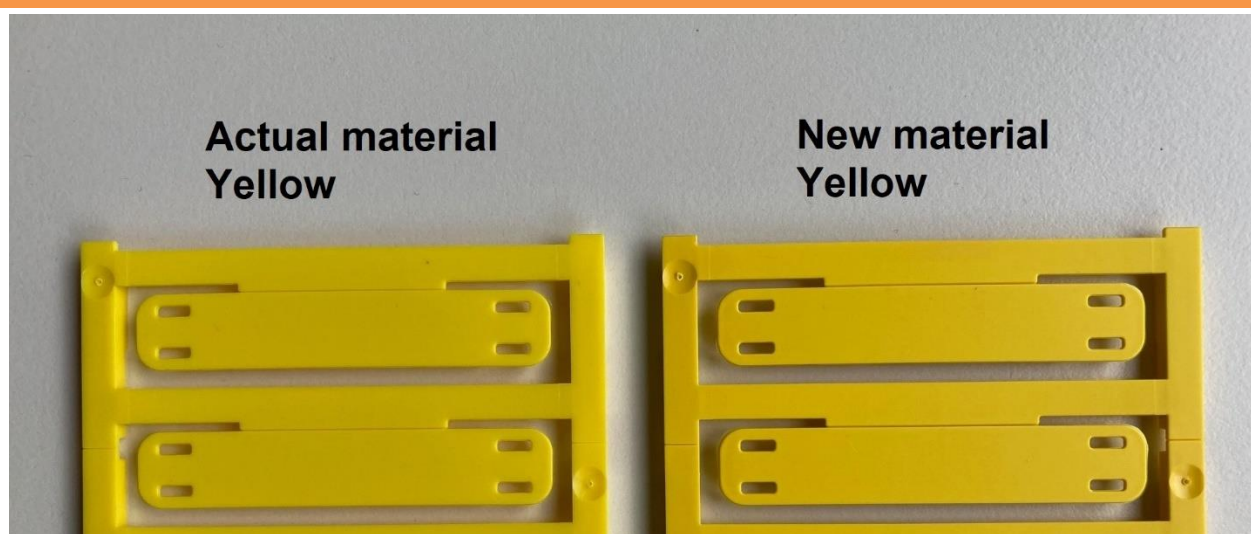

1. Initial situation

For over 30 years, MultiCard markers have set a standard in the field of marking terminal blocks, conductors, cables, and device equipment. The portfolio is made from a halogen-free, cadmium-free and silicone-free polyamide PA66 and is designed for printing with our PrintJet range of inkjet printers.

2. Technical change

For MultiCard markers in the colors **white, yellow, red, blue, grey and silver** we have added an additive in the order of approx. 2%.
This has no effect on the known functions or properties of the marker.
Only for the color yellow a slight color difference is visible (see picture).
The material for other colors has not been changed.

Old version	New version

Actual material Yellow / New material Yellow

3. Reason for change

The change is made to prepare the material for future applications we are planning for 2024. Details of these applications will be announced just in time.

4. Availability

The first variants will be delivered from November 2023.
These variants can be recognised by the following addition on the back of the packaging:

D	Neue Eigenschaften zum Jubiläum
GB	New features for the anniversary
E	Novedades para el aniversario
I	Nuove funzionalità per l'anniversario
F	Nouvelles caractéristiques pour le jubilé

http://wmqr.eu/new-mcmaterial

5. Affected parts

All MultiCard variants in white, yellow, red, blue, grey and silver. A list of all affected items (approx. 575) is available.

We hope that the changes will benefit your business and will not affect you in any significant way and apologise in case of any inconvenience caused. Please rest assured that we will do everything possible to achieve this product change as smoothly as possible with minimum or no business disruption.

For further questions or if you need any additional assistance or information, please contact your local sales office directly. All contacts for sales representatives are available here: http://www.weidmueller.com/contact
