

Weidmüller

Weidmüller on Wheels (WoW) Interactive Application Van Delivering the latest application solutions – right to your front door

The roadmap to Industry 4.0 –
explore our products, solutions & services

Weidmüller on Wheels (WoW) is
our interactive, mobile fleet of smart
industrial connectivity vans that brings
Weidmüller to your front door.

The WoW Van pulls right up to your
facility, with a Weidmüller expert as
your trusted guide.

When you tour our WoW Vans,
you experience the Weidmüller world:

- IIoT & automation
- Power supplies
- MiBridge migration
- Relays & surge protection
- C1D2 applications
- Industrial Ethernet solutions
- Wire connection technologies including SNAP IN
- Device connectors
- Workplace Solutions tools
- Wireless connectivity to u-remote, u-control and much more

With Weidmuller, Innovation is Built-in – Serving All Industries

We deliver complete expertise in smart industrial connectivity and comprehensive automation

Interactive Automation

See the latest innovations from Industrial Ethernet solutions to PAC controllers and remote I/O systems.

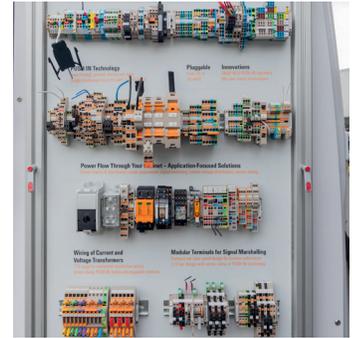

Monitor. Connect. Protect.

We design, innovate, and deliver smart industrial connectivity solutions engineered for the future of American industry.

Power Supplies & Energy Management

We've got the future covered – for the power supply and energy management of tomorrow.

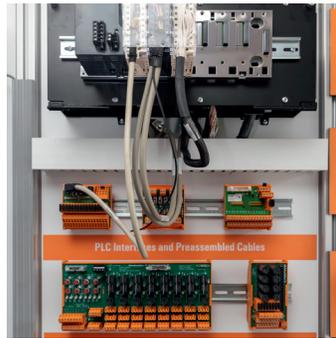

Klippon® Connect Terminal Blocks

Simple-to-use demo product rails highlight our full range of connection technologies.

PCB Terminal Blocks & Connectors

We offer innovative solutions for your PCB and battery connector needs.

PLC Migration & Interfaces

Save time and material with efficient rewiring and fast retrofitting of PLC/DCS control systems, including custom modules.

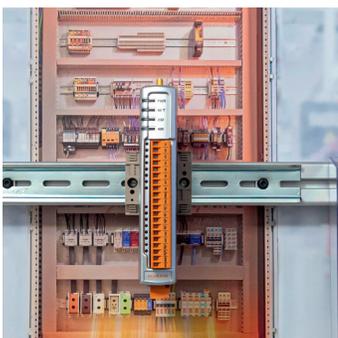

Relays, Surge & Circuit Protection

Competitive advantage is included in our circuit and surge protection and complete relays line for any switching needs.

Field Connectivity: Cable Entry Solutions

We offer service interfaces, HDC and cable glands for all of your power, signal and data needs.

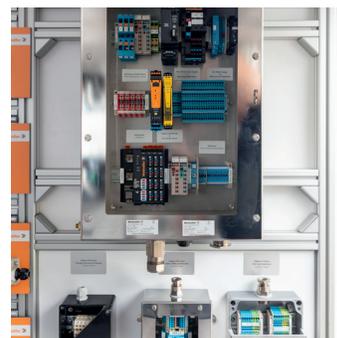

Product Spotlight

We are showcasing our latest innovations with updates to highlight our future-ready solutions.

Workplace Solutions

Try our professional tools to meet high demand – cut, strip and ferrule wires.

Engineering & Assembly Services

We deliver customized solutions with Hazardous Location enclosures, certified components and assemblies.

Weidmuller Configurator

Discover the most seamless planning tool for electrical designers, and a wealth of other digital resources.
