

## PLC System Cabling

# Interfaces and Pre-assembled cables for Omron CJ1W

# Universal solutions for PLC input/output cards

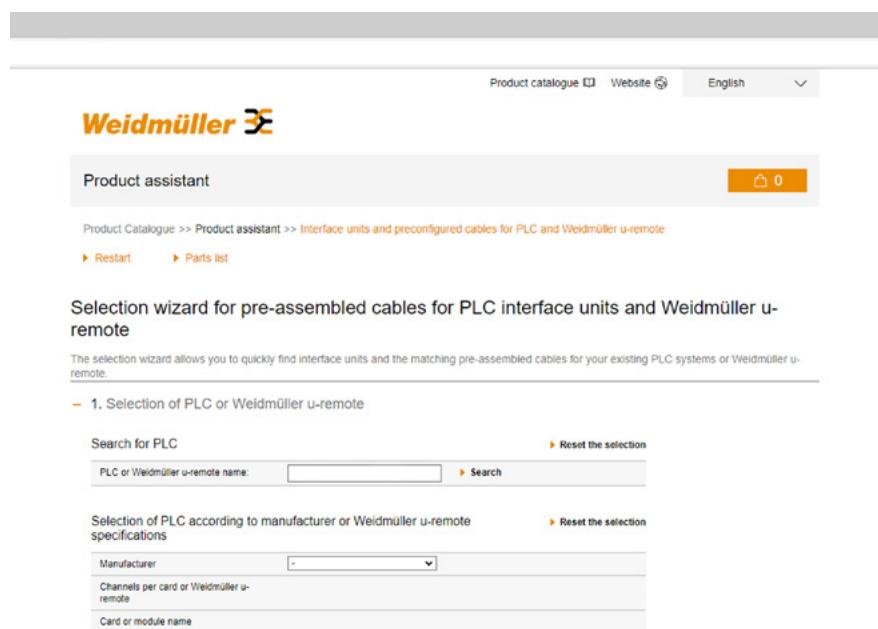

Aimed at reducing costs, and to save space and time in the construction of electrical cabinets, the universal cabling system for PLCs is provided as an effective alternative to end-to-end cabling design. Weidmüller offers a wide range of pre-assembled cables and interfaces:

- The interfaces are used as an interconnection element between the control and the process, and are supplied with tension clamp or screw connection. Those interfaces, with a compact design, provide different functions such as LEDs, fuses, disconnectors or relays.
- The pre-assembled cables are supplied with the manufacturer's own connector at one end and are available in different lengths.

## Product Finder and automatic selection guides:

To help you choose the right products for your application, Weidmüller offers this **Product finder** with a selection table which can be found on the following pages.

In addition, on our website, we have an automatic selection guide, using intuitive software that can help you to choose the appropriate interface cable for your Input/Output cards. This can be found at [www.weidmueller.com](http://www.weidmueller.com)

The screenshot shows the Weidmüller Product Finder interface. At the top, there are links for 'Product catalogue' and 'Website', and a language selection for 'English'. Below this is the Weidmüller logo. The main area is titled 'Product assistant' and shows a progress bar with '0' items. A breadcrumb navigation path is visible: 'Product Catalogue >> Product assistant >> Interface units and preconfigured cables for PLC and Weidmüller u-remote'. Below this are 'Restart' and 'Parts list' buttons. A sub-tutorial titled 'Selection wizard for pre-assembled cables for PLC interface units and Weidmüller u-remote' is displayed, stating that the selection wizard allows users to quickly find interface units and matching pre-assembled cables for PLC systems or Weidmüller u-remotes. The wizard consists of three steps: 1. Selection of PLC or Weidmüller u-remote, 2. Interface unit selection, and 3. Cable selection. The first step is currently active, showing a search bar for 'PLC or Weidmüller u-remote name' and a 'Search' button. Below the search bar are dropdown menus for 'Manufacturer', 'Channels per card or Weidmüller u-remote', and 'Card or module name'.

**Acces to Weidmüller Product Finder:**

# Interfaces and Pre-assembled cables for Omron CJ1W

The following selection tables help you to choose the pre-assembled cables

## 1. Select the PLC card from the corresponding table

For example: IA111

## 2. Check the code of the cable to be ordered:

- Cable code 7789664xxx
- Quantity: 1 unit (by card)

The last 3 digits indicate the length:

For example, 015 indicates 1.5 m

## 3. Locate the module family and the quantity required

Example:

- R2416 System Quantity: 1 unit (by card)

Take the notes into account (if there are any)

## 4. Once the module family is chosen (step 3 - eg R2416), search it in the Interface selection tables and choose the proper interface according to the need of the application: 1, 2 or 3 wires, screw or tension clamp connection, with fuse, LED, switch

In the case that an input/output card does not appear in this table, you can check our on-line PLC selection guide at [www.weidmueller.com](http://www.weidmueller.com) where you will always find the most up-to-dated information.

### Note

- A) Attention! Only use interfaces without LEDs
- B) Attention! Use only interfaces without LEDs for the direct option.
- C) Attention! Use only interfaces without LEDs for the direct input option

• Please, always take into account the characteristics of the PLC card (voltage, current...) when selecting interfaces.

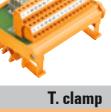

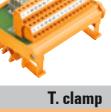

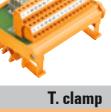

In some cases, the card can work at higher voltages than those indicated in the interface.

• The interfaces are intended to be used inside an IP20 enclosure at least.

• The last 3 digits of the cable code indicate its length in decimetres. For example, if the code ends in 100, the cable would be 10 m long.

\* In the case that an input/output card does not appear in this table, you can check our on-line PLC selection guide at [www.weidmueller.com](http://www.weidmueller.com) where you will always find the most up-to-date information.

# Main advantages

## Wide range of passive interfaces

The range includes passive input/output interfaces for digital and analogue signals. The interfaces are available in screw or tension clamp connection and the sensors/actuators can be connected with 1, 2 or 3 wires, whichever is needed. You can also choose from a large variety of functions:

- LED indication
- Fuse
- Disconnectors
- Test points

## Wide range of relay insulated interfaces

Available in versions with 8-12 and 16 relays, the RSM family offers the possibility of insulating digital signals both in input and output cards. Options include our compact format (6 mm relays) or standard (RCL relay), with additional features including:

- Switch in coil and contact
- Fuse in contact
- 1 or 2 CO contacts

## Guaranteed connection

The original PLC connector is on one end of the cable and standard connectors are on the other end: ribbon cable with fixing housing for digital signals and SUB-D connector for analogue signals. Available in different lengths.

As experienced experts we support our customers and partners around the world with products, solutions and services in the industrial environment of power, signal and data. We are at home in their industries and markets and know the technological challenges of tomorrow. We are therefore continuously developing innovative, sustainable and useful solutions for their individual needs. Together we set standards in Smart Industrial Connectivity.

We cannot guarantee that there are no mistakes in the publications or software provided by us to the customer for the purpose of making orders. We try our best to quickly correct errors in our printed media.

All orders are based on our general terms of delivery, which can be reviewed on the websites of our group companies where you place your order. On demand we can also send the general terms of delivery to you.
