## **Liability**

The data of the Weidmüller **Safety-Parameter-Library** has been generated in a thorough way and to the best of our knowledge.

The user of this data shall not be released from the obligation to check our specifications and recommendations under his/her responsibility prior to using them. Especially, user shall review the feasibility of the library's specifications for the application intended by user.

All warranties, liabilities or compensations, including liabilities for indirect or consequential damages (loss of profit and revenue, loss of business interruption, loss of capital, advisory fees) whether expressive or implied are excluded, provided, however, that the liability is not excluded in the event of mandatory liability, e.g. in cases liability is arising from death or injury or damage caused by intent and where mandatory laws do not allow limitations to liability such as the product liability statutes. Supplier does not warrant fitness for any particular purpose.

## **Products**

The safety products of the delivery program of the Weidmüller group are included in this database which is regularly updated and extended by new products.

If you should not find a specific product in this library, please contact our technical support.
